

ChemSynth

Fine Chemicals

A Division of **PureSynth** Research Chemicals

Fine Chemicals for Research, Analysis, Production

- CFC offers Chemicals and Reagents for Research & Analytical Labs in convenient and user friendly packs
- Guaranteed Specs in Bulk Packs (25 lit, 50kg, 200 lit)
- Scan QR Code on Product Label to download COA

Solvents, Buffers & Ion Pair Reagents For HPLC Applications

- **ChemChrom** - High Purity Solvents, Buffers & Ion pair Reagents for HPLC applications
- **ChemGradient** - High purity solvents suitable for HPLC Gradient grade applications

Chem GCHS
High purity
solvents suitable
for GCHS applications

**ChemChrom &
ChemGradient**

High Purity Solvents, Buffers &
Ion pair Reagents for HPLC applications

ChemElec

High purity solvents with very
low level of metallic impurities

ChemDriedSol

High Purity solvents with extremely low
moisture content suitable for non-aqueous reactions

ChemGR

Guaranteed analytical reagents suitable for quantitative analysis

ChemSR

General purpose reagents suitable for qualitative analysis, organic synthesis & other general
use in the laboratory
